WHAT ABOUT A FATHER'S DAY? SCHOOL DAYS MCCIure Now apaper Syndicate. By DWIG "THE OLD MAN" HIS DUE

MOTHER, the sweetest angel known as hern. On this day the men of America wear carnations in her honor, a roll flower for the living and a white one for the dead. This is a beautiful sentiment. But how about father?

The movies and the comic carnonists paint man as a scheming sinner who is always on the knut either for induced in the superior of for wild women. When father is not painted as a rumbound or some such character he is portrayed in the sunctify of his dining room or library, denying money to his write or knecking his ashes on the carpet. Semething, it seems, is always the matter with father.

As a matter of leaf father inn't such a had sort of a brute iunide. He toils over his bench, or deak er counter six days a week and many times at night, through summer's heat and winter's frigid blasts in order that mother and the little ones may have a combutable home and base from want and worry. It inn't always a pleasure for flowery dells and in some cases to poker parties and to old swimming holes and such. The whatele of a lad outside the summany holes and such. The whatele of a lad outside the hum of the lathe of the click of machinery drowns out the melody.

Then there is the payroll, if father happens to be an employer. That has to be met so that other fathers may go home to eager, laughing little ones with the earnings of their fail. It had always easy to meet payrolls. Running a huminess in a hard proposition and the other counter is had been and wine, and the previous out the melody.

Then there is the payroll, if father happens to be an employer. That has to be met so that other fathers may go home to eager, laughing little ones with the earnings of their fail. It had always easy to meet payrolls. Running a huminess in a hard proposition and the other counter is harden of the counter of the previous out the melody.

Then there is the payroll, if father happens to be an employer. That has to be met so that other fathers may go home to eager,

shediness is a hard proposition with so many expetuse and obstacles. But father usually comes out on top, even if what hair he has left times gray or falls out.

Of course father invalid comes out on top, even if what hair he has left times gray or falls out.

Of course father invalid all routine and teclum. There are times when he relaxes with his fellow men at lodge or at hemotype the has left times gray or falls out.

Mother would be surprised, maybe, to know that it invalidates when he relaxes with his fellow men at lodge or at hemotype the response of the states of the union ratified hemotype the response of the states of the union ratified he shaded to the states of the union ratified he shaded to the states of the union ratified he shaded to the states of the union ratified he to the states of the union ratified he shaded to the states of the union ratified he has been continuously be allowed and the only way it can be made a political issue its bring the late of the states of the union ratified he may be aftern the states of the union ratified he may be educated and have places to play out where there are kinds and trees. And if mothers with that this children may be educated and have places to play out where there are kinds and trees. And if mothers with the thinks about it they will be surprised how much effort intake his and have places to play out where there are kinds and have places to play out where there are kinds and trees. And if mothers with the children will have be left helphess and heart with the children will not be left helphess and heart will not be left helphess and for his town and his state and his country. During the late war, in spite of the fact that the draft was supposed to fake single men only. REABLY HALF OF THE MEN WIO FOUGHT IN FREE DOM'S CAUSE WARE FATHERS.

In consideration of all these things and many more that have not been mentioned, it seems that father would like to have would be as a hance day earn at the support of the would care. But what father would like to have him to go to church or to dress up or to be careful with his cigar axies or do or say anything else that would annoy or irritate him.

There is a general strike in Poland; in America the war separament is striking all of the generals.

It is not more self expression that is needed, but more self-control.

IN order to set to Manni Beath you have to cross one of the longest heldges in the world. Exact tistes we high, but it is somewhere around a half a mile long, and it crosses a narrow bay which segarates the brack from the maintand, where the town of Winni stands.

All along the east count of Florida, there is the same formulton—a narrow protected fundow unisrway betweet the searceast and the maintand. This infinity waterway makes it possible for very small and tractic craft to transit atong the count of perfect marky, but it also makes it measure to cross a strip of water in order to cross a strip of water in order to reach the beach.

It is said that the man who built this wooden bridge at Mlami, back in the days when it was not much of a lown, was which reached as a fool. But both he and Miami prospered and he made the trip in the man who half in the man who half in the man beach itself. Now a great canswary of comest is being built to replace the off wooden bridge, and islands are denient by building a pavilion and tathbouse on the denient in the man who had been in all the cost of his bridge in tolla, while another had make a form the beston and making plues of it. This sand contains so much lime that it binds and makes a firm foundation for huilding. The artificial islands are selling for very high prices and the wisdom of the fool is amply proven.
